DETAILED ACTION

1. Amendment filed on 8/5/2011 is acknowledged.

Allowable Subject Matter

2. Claims 1-4 are allowed.
3. The following is an examiner's statement of reasons for allowance: A dental model tray made entirely of a polymeric material having a thin, membrane-like connector member formed along the perimeter of the base allowing breaking off of the side walls, a slide block means for removably engaging the tray to ell-shaped members whose ends pivot against each other, to an ell-shaped member with first and second legs that are joined together at a common juncture, and a stabilizer wall that extends from the common juncture of first and second legs of the ell-shaped member to a position on the slide block means that is spaced from the intersection of the slide block and the first leg was neither taught nor suggested by the prior art as a whole, either alone or in combination, and in combination with the elements set forth in the claims. The stabilizers of the prior art are used to directly stabilize the impression and are not first extending to any sort of slide block means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
